**Oct 10<sup>th</sup> Main Speaker: Steve  
Fields, candidate for Redmond  
Mayor**

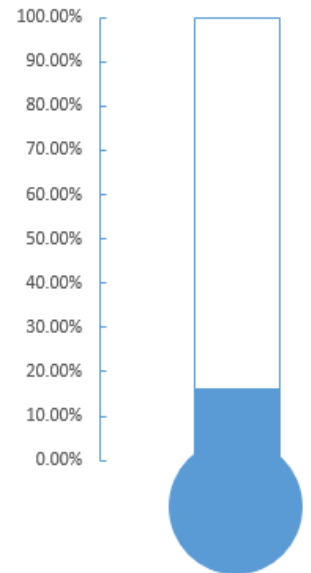

This election for Redmond's Mayor is a pivotal moment for the future of Redmond. Our growing city has become more complex and our need for professional management is essential. The direction of our city must be in the hands of capable and proven leadership.

Redmond's strong mayor system of government makes the mayor the chief executive and she or he must be skilled and qualified for the job. We can't accept the many mistakes made by our current city leadership. We can not tolerate more of the same.

I care deeply about our community and want to provide experienced leadership that will bring much needed improvements to how are city is managed and how or growth is planned. As Mayor I will implement professional management practices that protect our city buildings and assets, empower innovative problem solving, and restore the trust of our residents in city government.
