11/14 Veterans Celebration

A local doctor tells his story about the daring rescue that led to the major motion picture The Lone Survivor, starring Mark Wahlberg. In the summer of 2005, Dr. Tony Brooks was a member of the vaunted and secretive 75th Ranger Regiment in Afghanistan. On the very first mission of his career, he was tasked with the rescue and recovery of a downed chinook helicopter carrying 16 service members and a missing 4 man Navy SEAL reconnaissance team that included the "Lone Survivor". For the first time, Dr. Tony Brooks will share the story of the 75th Ranger Regiment in this storied rescue with our local community. He will also touch on teamwork, collaboration and the importance of serving something greater than self in celebration of our nation's veterans. Learn more about Dr. Tony Brooks at www.drtonybrooks.com.

Dr. Tony Brooks is a Redmond, WA based chiropractor, speaker, and author. He owns and operates Structural Chiropractic, is a current board member for The Redmond Police Foundation, Hobizbo Inc., and the Redmond Rotary Foundation.
